FEDERAL PERSONNEL IN EXECUTIVE BRANCH, JUNE 1958 AND MAY 1958, AND PAY, MAY 1958 AND APRIL 1958

NOTE WITH REFERENCE TO PERSONAL SERVICE EXPENDITURE FIGURES

It should be noted that the latest expenditure figures for personal service shown in table I of this report are for the month of May 1958 and that they are compared with personal service expenditure figures for the month of April 1958, whereas the latest employment figures covered in this report are for the month of June 1958 and are compared with the month of May 1958. This lag in personal service expenditure figures is necessary in order that actual expenditures may be reported.

(Figures in the following report are compiled from signed official personnel reports by the various agencies and departments of the Federal Government. Table I shows total personnel employed inside and outside continental United States, and pay, by agency. Table II shows personnel employed inside continental United States. Table III shows personnel employed outside continental United States. Table IV gives by agency the industrial workers employed by the Federal Government. For purposes of comparison, figures for the previous month are shown in adjoining columns. Table V is a separate report on foreign nationals who are not counted in tables I, II, III, and IV.)

FOREIGN NATIONALS

Table 5 segregates and accounts for certain categories of personal services rendered to the United States Government overseas, which cannot be regarded as ordinary direct employment.

Generally, this personal service is rendered military agencies overseas under agreements with the foreign governments. In most cases the employment is indirect. The foreign governments hire the employees. The United States military agencies in most cases administer or direct the activity.

Personnel hired and used under such circumstances cannot be properly considered in the same category as regular employment, but they are used and should be counted for what they are.

The Joint Committee on Reduction of Nonessential Federal Expenditures is endeavoring to identify these groups of employees and to count them along with, but separate from, the regularly reported United States employment overseas.
